- H. (3) 1/2" C x 1/2" M NPT Copper Adapter
- I. (3) 3/4" C x 3/4" M NPT Copper Adapter
- J. (1) Teflon Tape Roll

Installation:

This package contains the appropriate fittings and valves to ensure a professional plumbing installation. As each steam generator installation and corresponding plumbing runs is unique, common 1/2" (drain, steam and water) and 3/4" (pop safety) copper tubing and fittings can be purchased from a local hardware source to complete your installation. This package provides the essential, copper and brass components necessary for a serviceable and fully removeable steam generator installation.

Verify package contents (above) with **IMAGE A**. Locate appropriate fittings in installation **IMAGE B**. Install as detailed using provided teflon tape on all threaded fittings. While installing fitting package, attempt to locate unions near generator for easy access.

Note: Please refer to the steam generator manufacturer's installation and operation manual for specific and complete generator installation instructions.

* Drain Valve and Pop Safety Valve Supplied With Generator
