

WATER MAINTENANCE INSTRUCTIONS

Getting Started

Follow these steps to keep your Icetubs® water clean, safe, and environmentally friendly.

What's in the Box

- 1L AquaFinesse® Icetubs Water Care Liquid
- 1 measuring cup
- These instructions

Weekly Water Care (Takes <5 minutes)

1. Shake the AquaFinesse bottle well before use.
2. Once a week (preferably on a fixed day) measure and add the correct amount using the included measuring cup.
 - a. See the recommendation below, or the label on the back of the bottle, for dosage.
 - b. The recommended dose remains fully effective within a $\pm 30\%$ range, so there's no need for perfect precision. Your water quality and system performance will stay consistent.
 - c. Pour evenly across the water surface.

Recommended Weekly Dosage (based on typical 65-80% tub fill)

- IceBarrel: 40ml
- IceBarrel XL: 60ml
- IceBath: 40ml
- IceBath XL: 80ml
- ProBath: 100ml

Ongoing Maintenance

- Replace the filter every month to keep your water clean and your system running efficiently. (Required)
- Use the insulated cover whenever the tub is not in use to help keep the water clean and reduce energy consumption. (Recommended)

Important Safety Info

- Do not mix with other water treatment products and chemicals.
- Always close the child-proof cap after use and keep out of reach of children.
- If ingested or in contact with eyes in undiluted format, wash thoroughly with water and consult a physician.
